

Anti-Litter Roadside Sign Order Form Izaak Walton League of America

Litter is everybody's nemesis! The White Oak River Chapter in Swansboro, North Carolina has found that installing this "friendly" warning sign on roadways, trails and streams does help to curb the litter. It's also a great way to let your community know that your IWLA Chapter members care and are active doing on-the-ground conservation work locally.

These "Don't Litter" signs are 12"x18" with six pre-drilled mounting holes and rounded corners, and made of heavy-duty .040-gauge aluminum. They are durable, visible from a distance, and stand up to just about anything. These signs are available to your IWLA chapter for \$120 for a package of ten. Shipping and handling are included in this price.

For more information, contact Al Fox at (252) 393-7315 or gafox@ec.rr.com.
