

Anti-Litter Roadside Sign Order Form Izaak Walton League of America

Litter is everybody's nemesis! The White Oak River Chapter in Swansboro, North Carolina has found that installing this "friendly" warning sign on roadways and trails and along streams and rivers does help to curb the litter. It's also a great way to let your community know that your Izaak Walton League chapter members care and are active doing on-the-ground conservation work locally.

These "Don't Litter" signs are 12"x18" with six pre-drilled mounting holes and rounded corners, and made of heavy-duty .040-gauge aluminum. They are durable, visible from a distance, and stand up to just about anything. These signs are available to your IWLA chapter for \$270 for a package of ten or \$145 for five. Shipping and handling are included in these prices.

For more information, contact Kim Corbin at (252)393-8879 or gkcorbin@ec.rr.com.
