

1

### Sign up for a Water Reporter account

#### Download the Water Reporter app

Find the Water Reporter app in the app store and add it to your smartphone. You can also visit WaterReporter.org on your computer.

#### Set up your profile

Follow the prompts to create your account. Join the Izaak Walton group to share results with us.

#### Turn on location services

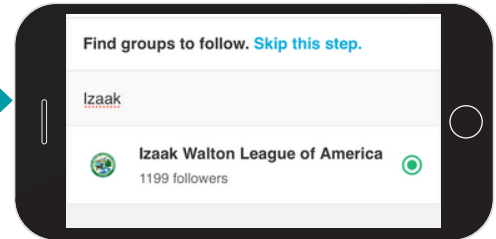

Make sure Water Reporter can use your location

2

### Join the Izaak Walton League of America Group

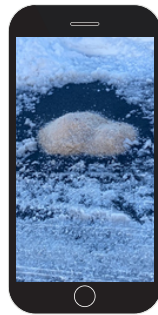

#### Follow the IWLA Group

1. Search "Izaak Walton League of America" on Water Reporter Search bar (top of page).
2. Click "follow" to join.

3

### Snap photos for the Salt Watch campaign

#### Share chloride sample readings

Follow the instructions in your Salt Watch kit to conduct your chloride sampling. When you take a photo, make sure you clearly display the freshly used chloride strip and conversion card.

#### Identify road salt pile locations

If you come across a large pile of road salt, take a photo and share it in the Water Reporter app.

4

### Share your photos on Water Reporter

1. Confirm the location of your report.
2. Add your photo to the report.
3. Share with the Izaak Walton League Group.
4. Submit your report!
